

DA-104b

4-port DVI Splitter

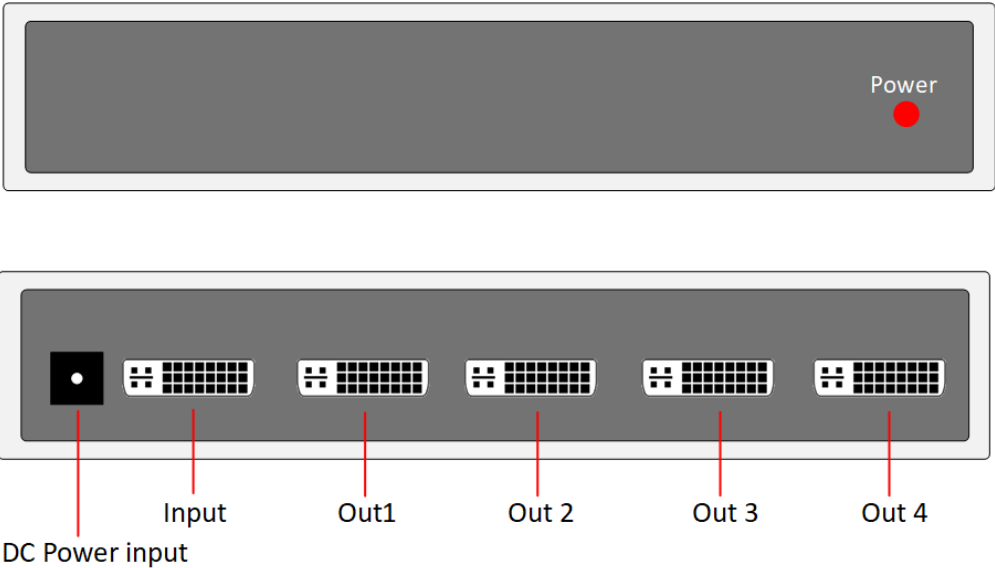

The DA-104b is a 4-port DVI Splitter that consists of 1 DVI input port and 4 DVI output ports. It allows one DVI signal source to be split to four DVI displays simultaneously. The EDID pass-through feature is supported on output port 1.

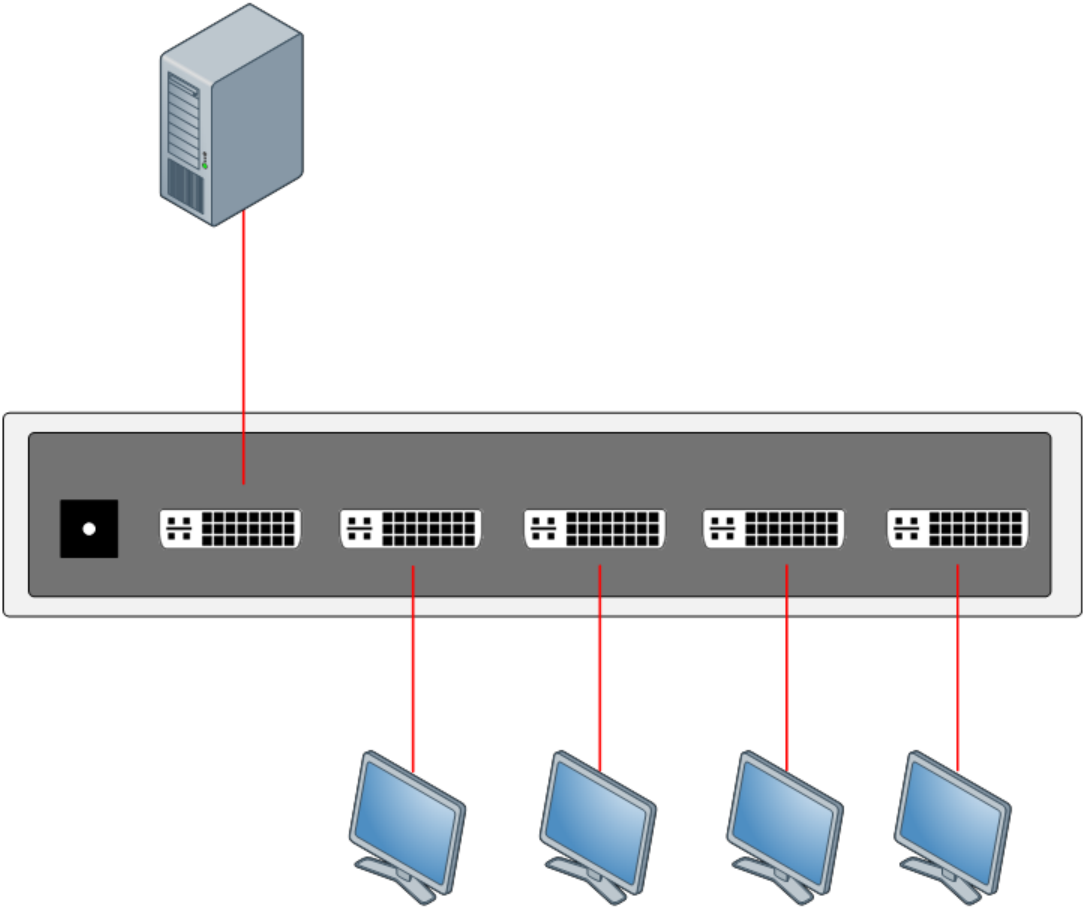

Features

- ❖ Split 1 DVI input to 4 DVI outputs.
- ❖ Supports DVI 1.0, HD 1.4b and 2.0b specification.
- ❖ Supports 12-bit Deep Full HD, Full 3D, HDR and 4K2K 60Hz resolutions.
- ❖ Wide Frequency Range: 25MHz - 600MHz.
- ❖ Supports EDID pass-through feature on output port 1.
- ❖ Without HDCP.
- ❖ Pure hardware design, plug-and-play, no any additional software is required.
- ❖ Works with any hardware platform and with all Operating Systems.
- ❖ Metal housing ensures the most durable and reliable setup.
- ❖ Magnetic pad to simplify installation.

Front and Rear View

Diagram

Model No.	DA-104b	
DVI Input	1 x Single Link DVI-D (Male)	
DVI Output	4 x Single Link DVI-D (Female)	
Video Bandwidth	25 – 600 MHz	
Video Resolution	up to 4K2K 60Hz	
HDCP	Without	
Maximum Cable Length (output)	up to 15 meters w/ High Quality UL-2919 DVI cable	
Power	DC 5V/1A, Max. consumption 600mA	
Operating Temperature	0 ~ 70° C	
Storage Temperature	-20 ~ 85° C	
Physical Properties	Material	Metal
	Weight	520g
	Dimension (W x L x H)	240 x 82 x 30 mm
